Technical notes:

Pictures were taken with a Nikon Coolpix P5100, set at 12 megapixels, and resized to 800 pixels on the long side before building the catalog with Graphcat in WordPerfect 12. The catalog settings were for 2 columns, 3.5" height, no borders, small margins, centered. After building the catalog, I edited the page header text, added these remarks, and used the built-in PDF export in WordPerfect to create the final catalog.

More information about Graphcat is online at <http://www.graphcat.com>
